ELECTRIC HIGH PRESSURE MASTER CYLINDER

This polished aluminum master cylinder is the answer for Mustang owners with special brake needs. Lack of space because of a big motor, lack of vacuum caused by big cams, blown or supercharged engines, or are you just looking for a superior looking unit that does not hang out so far from the firewall'This unit is a unique self-contained booster that is not dependent on engine vacuum booster or a steering pump, yet is capable of generating up to 2500 lbs of line pressure. It features a larger bore than most cylinders so it can handle single or multi-piston calipers, but still gives you a solid pedal.

DUAL CHAMBER POWER BRAKE CONVERSION KIT

This setup utilizes a new power brake booster with increased sensitivity, new large capacity dual chamber master cylinder, specially designed mounting bracket to allow direct bolt in while retaining original brake pedal assembly and clearance of the shock tower.* Note: Booster requires a minimum 15 inches of engine vacuum pressure at idle for maximum stopping power. Some high performance high lift camshafts may not create enough vacuum. Stock engine vacuum pressure is 18 inches. 1 year warranty. Picture for reference only. Check website for actual picture of each kit. *(Note: PBC-M1 & PBC-M2 require notching factory shock tower brace. Export brace recommended.) Will not fit cars with factory power brakes. Installation instructions are not included, as this kit should be installed by a trained professional. We recommend part number PBC-MCL to ease installation. Early cars may also require a brake distribution block.

CV TOP W/ GLASS BACK WINDOW

Glass rear windows enhance rear visibility. They are not prone to scratching, cracking, or yellowing due to sun exposure. Robbins heat-seals glass into glass window assemblies using the same equipment and techniques as Ford and other OEM convertible manufacturers. They do not use inferior methods that produce weak bonds, such as gluing them with silicon. All of our tops feature: Assembled header-bow bulb seal, specially treated vinyl to resist mildew, 3 year pro-rated warranty, coated vinyl for extra waterproofing, factory original pinpoint grain, heavy duty YKK nylon zipper, includes wire-on feature strip with stainless tips and screws, and meets motor vehicle fire retardant requirements. Stock colors are black and white, however we can special order Tan, Dark Blue, Brown, and Saddle. Special Order colors are non-returnable and have a $30 upcharge. 1964-70 rear windows feature Robbins patented "Flex-Hinge" folding seam. 1971-73 are solid glass. 1964-66 must use convertible well liner part number WL-FM-67-BK. Glass rear window and top are packaged in a single box for reduced shipping cost.

RADIATOR CAP WITH ELECTROLYSIS PROTECTION

A special radiator cap that includes a sacrificial magnesium anode that protects aluminum and other soft material engine components from electrolysis. Electrolytic Metal Erosion (EME) is slowly destroying your engine components. EME attacks timing chain covers, radiators, heater cores, intake manifolds, freeze plugs, head gaskets, thermostat housings even cylinder heads causing premature failures. By allowing EME to attack the sacrificial anode, the radiator cap protects your engine while driving or in storage.

FoMoCo HALOGEN HEADLIGHT

Now available from Scott Drake, FoMoCo Halogen Headlamps featuring authentic Ford markings and upgraded Halogen performance. This is a reproduction of a very desirable and rare version headlamp used on Classic Mustangs. We took NOS new original Ford bulbs and duplicated them in appearance while improving them with Halogen lighting technology. Halogen headlamps produce more than double the lighting power of original Tungsten bulbs. Perfect for drivers or trailer queens, a great safety improvement while maintaining an original look. Over the years Ford

AUTOLITE BATTERY

Our Autolite Sta-Ful batteries are authentic reproductions of the originals that use the original case, and not just cover molds. These batteries are maintenance free, utilizing the latest AGM (Absorbent Glass Mat) technology so they never require adding acid or water filling. The electrolyte is trapped in the separators so the battery can't leak, even if the case is broken. They come fully charged and ready for installation. These are not generic batteries inside a case, they are full true AGM batteries. Long term storage is not recommended. Do not order at the beginning of your restoration. Warranty starts on the "date-of-purchase," not date of installation. Group 27 requires a specific battery tray. Made in the U.S.A.

390 GT HIGH PERFORMANCE AIR CLEANER

Coming soon from Scott Drake, a Concours Reproduction of the extremely rare 67 390 GT High Performance Air Cleaner under part # C7ZZ-9600-E which includes Blue Base and Chrome Lid. This is also an excellent stock appearing performance upgrade for the very restrictive 68-70 390-428 Air Cleaners. Some early Production 68 390 GT's may have come factory with this Air Cleaner. Chrome Air Cleaner Lid will also be available separately under part # C7ZZ-9661-A. It will fit some other Factory Air Cleaners as well, the Lid's Outside Dimensions are 16.75" so will not fit the more common 17" versions.

Both Assembly and Lid will be available Summer of 2012.

IGNITOR CONVERSION

Never change points again, plus increase horsepower and improve fuel economy. Fits entirely under the distributor cap, with no black box to clutter the engine compartment. Installs in minutes, and is completely hidden. Other benefits: Test results show the Ignitor delivers twice the voltage to the spark plugs. No limits to coil and spark energy (spark energy is limited by the coil). A 2:1 improvement over "point type" systems in current fall time. Stable timing with no need for periodic adjustments. Increase spark plug life by 2 to 3 times. No contacts to burn, pit and corrode. No moving and rubbing parts to wear out. Better foul weather performance.

64-73	8 cylinder	IGN-1281	$94.95 KI

HIGH POWER IGNITOR CONVERSION

The Ignitor II takes the Ignitor a step further by adding a powerful new microcontroller, that controls the dwell period, for the best possible spark over the entire RPM range. Ignitor II offers enhanced performance levels only found in more expensive box type ignition systems. Compared to point type systems Ignitor II develops on average 4 times more available energy between 3,000 and 5,000 RPM, and 2 times more available plug voltage. Higher RPM performance is improved when used with the Flame-Thrower II super low resistance 45,000 volt coil.

PERTRONIX SPARK PLUG WIRE SETS

These low resistance, high performance wire sets feature two current paths. One path is spiral wound stainless steel alloy and the other is a carbon impregnated fiberglass center core. Other features include low 500 ohm per foot resistance. Silicone jackets used to resist high temperatures, moisture, oil and chemicals. EPDM rubber inner insulation for superior heat resistance and prevention of arching and voltage leaks. Fiberglass reinforcing braid for added strength and flexibility. Available in red, blue and black, these spark plug wires come with a lifetime warranty and are made in the U.S.A.

INTAKE MANIFOLD COMPONENTS

INTAKE MANIFOLD

We have taken our highly popular Typhoon™ High Performance street manifold and modified it to produce a Crosswind variation. The Crosswind design incorporates an open area under the plenum to allow a full flow of cooling air to pass through. This design provides more power and torque due to a colder, more dense intake charge.

CAL CUSTOM OIL PAN

Scott Drake is proud to reintroduce the famous Cal Custom aluminum finned oil pan that was so popular throughout the 60's, 70's and 80's. It has not been available for years, but it is back again and now even better than before! Not only do these pans look great fully polished with raised fins but they also offer the added benefit of reducing oil temperature to help your engine run cooler. We have even added a strong magnetic drain plug to help protect your engine from destructive metallic particles floating in your oil. These Oil Pans fit: 260, 289, and 302. Also available: Cal Custom Aluminum Finned Valve Covers (C5ZZ-6A582-AF), and Air Cleaner (C5ZZ-9600-AFK).

CLASSIC ALUMINUM VALVE COVER

* Official Licensed Product

Made by Scott Drake, Classic Aluminum Valve Covers for small block Ford engines! These valve covers are die-cast from high-quality 383-3 aluminum alloy, and then given a durable powder-coated wrinkled finish or polished aluminum finish. They also feature a cadmium plated oil filler tube to help stop corrosion, an improved oil baffle design to accommodate high-lift cam shafts, and will work with most roller rockers. Spark plug wire brackets and PCV grommet included. Available in a variety of styles. Will not fit EFI cars.

EXHAUST SYSTEM

EXHAUST HEADERS

HI-PERFORMANCE 6 CYL. EXHAUST HEADERS

We believe that a properly modified 6 cyl. will put out as much usable low RPM horsepower as a V8. We offer both the single and dual outlet versions. Single outlet is recommended if no other modifications will be made. Dual outlets work best with Hi-Po Camshaft, 2V carb and Pertronix Ignitor. Single outlet also works well with these modifications. Dual outlet is for customers that want the look and sound of a V8. We recommend buying an exhaust port divider (part # C3OZ-9430-EPD) which smooths out air flow between the #3 and #4 cylinder. Will fit Mustangs, Falcons, Rancheros, Comets, Fairlanes, Torinos, and Mavericks.

Exhaust Headers, Hi-Performance 6 Cyl.

JBA BIG BLOCK, TRI-Y EXHAUST HEADERS

JBA's Tri-Y long tube headers for 390/428 give you the power you're looking for in a package that fits like no other. JBA's designs are application specific to best fit the engine/transmission combination in your Mustang. They also feature big 1-3/4" primaries that flow in to 2-1/4" secondary tubes and terminate in a big 3" collector. Plus they are designed to give maximum ground clearance for street or track use. With heavy-duty stainless steel tubing, thick 3/8" laser-cut flanges and JBA sealing dome collector, you don't have to worry about leaks caused by lesser materials. *Note for JBA-6656-S: 69-70 cars with factory reinforced shock tower may have minor clearance issues. If you are running standard 390 heads versus 390GT heads we can special order you correct headers for the same price.

Exhaust Headers, JBA Big Block, Tri-Y

67-70 Tri-Y, 390-GT, will not fit standard heads .
JBA-6656-S $999.95 KI

69-70 Tri-Y, 428CJ, will clear reinforced towers .
JBA-6655-S1 $999.95 KI

JBA SHORTY EXHAUST HEADERS

Custom built premium quality headers. Compare these features to the competition. Precision laser cut 3/8 inch flanges, Mandrel bent 14 gauge tubes, Patented fire cone which optimizes scavenging, lifetime warranty by maker, sealing dome technology, industrial nickel plating, installation instructions, gaskets and mounting hardware. We feel these are the best headers on the market. Note: 64-65 Mustangs will require 1966-1970 motor mounts and brackets for proper clearance (see

"Engine" category).

MODIFIED TRI-Y EXHAUST HEADERS

Tubes are CNC mandrel bent, then carefully installed in our precision engineered welding jig for a perfect fit, & precision welded. They have been fitted on multiple applications and we find them superior to previous suppliers. These fit both automatic & manual, also fit large & small bell housing, along with extra clearance for starter, mounting flange bolts can easily be accessed and they clear Shock Towers.* Provides full articulation of steering assembly w/out interference. Note: Power Steering cars require Drop Down Bracket. Over forty years of Mustang modifications have resulted in endless configurations and combinations, but we believe this product offers the best overall fit so far. Feature extra thick 3/8" flanges to prevent warping. Metal composite flange gaskets, 1" Primaries, 1" Secondary's and 2 1/2" Collectors. Includes Reducer Cones which taper to 2" with gaskets and all necessary mounting hardware. Cars with larger 164 tooth 302 Bell housings may have to make make minor modifications to the Header or Bell Housing for proper clearance. Note some Early 289 cars have been retrofitted with larger Bell Housing.

CONCOURS EXHAUST SYSTEM

We now offer the most comprehensive line of exhaust products for 1964 -1973 Mustangs and 1965-70 Shelbys. These Exhaust products are of premium quality and made to original factory specifications in the U.S.A. All of our products have been test fitted on the appropriate Mustang prior to production to insure a trouble free installation. We use only the heaviest gauge aluminized tubing available. Mufflers have correct factory brackets when needed and are also aluminized to eliminate early rust out. All Kits are compression bent just like originals for that Concours look. H-Pipes and Hanger kits are sold separately.

CARBURETOR COMPONENTS

CARBURETOR ACCELERATOR PUMP

This Diaphragm Pump mounts on the front all 64-73 Autolite 2V carbs as well as 64-67 Autolite 4V Carbs. With today's Gas these commonly fail, especially when sitting for extended periods of time. Complete failure will cause dangerous fuel leaks, but many times these will affect performance well before a leak actually starts. Good idea to replace every 2-3 years or if sitting for 6 months or more.

DOOR SILLS

LIGHTED SILL PLATE

These sill plates are constructed of 304 stainless steel, not lightweight aluminum. We also gave it a bright, polished finish, and added brushed GT type stripes for a retro look that will keep it looking great for years. Additionally featured is a custom logo with a cool blue luminescent light that glows when the doors are opened. In daylight or at night, our lighted sill plates will turn heads. Simple installation makes this a "must have" part for your Mustang.

1969-70 ARM REST PAD

Correct texture and molded-in colors, with steel insert molded into foam to increase strength. Extra thick vinyl skins. American made. Note: Ford used 2 different arm rest pads in 69-70. We currently offer only 1 version. Mounting holes are approximately 12 1/4" from center to center on our pads. Some cars measured approximately 13". These cars will require relocating one mounting hole before door panel is installed. We are working with manufacturer to offer both versions in the future.

RALLY PACS & GAUGE POD ASSEMBLIES

POLISHED ALUMINUM BULLET

Another creative custom accent by Scott Drake. We have precision machined our aluminum bullets and finished them off with a beautiful polish. These look great on the face of the Tri-bar head lamps or as replacement center ornaments on a 1966 Rally Pac. Limitless possibilities for all other cars as well. Use silicone adhesive to secure.

RALLY PAC

This is the Ultimate accessory for your 65-66 Mustang. Our Rally Pac features a modern air-core movement tachometer and a quartz movement clock. Both the clock and tachometer faces feature the original style fonts and are back lit for improved visibility at night. The housing and bezels are pressure zinc die-cast from our own tooling and coated with a tough Du Pont crinkle texture. Our Rally Pac's include all of the brackets, color coded wire harnesses and easy to follow installation instructions. Available in the 6 most popular 1966 Mustang interior colors, new Satin chrome, or any original interior color by special order. Available for 6 or 8 cylinder engine applications.

SEAT BELTS

3 INCH RACE STYLE LAP BELT

Get that Cool Vintage Race Car look that was used in many competition cars during the 1960's including 1965-66 Shelby's. Extra wide 3" belt with quick release latch and a genuine Leather Protective Pad adds some extra safety over stock lap belts. Mounting Hardware included.

RETRACTABLE 3 POINT SEAT BELT

This product allows you to convert your 1964-67 Mustang Coupe, Fastback or Convertible's seat belts to a safer, modern 3-Point design. This is today's technology for yesterday's classic car. This Seat Belt Kit comes complete with all the hardware needed along with instructions to guide you through the installation. Available in a variety of colors. This Kit will also work on 68 -73 Mustangs, but if you use existing roof mounting point, the webbing may be too short for some Drivers. For 1968-73 customers looking for a more original appearance and wishing to use their factory Roof mounting point we offer SB-3P-BK-PBSB in Black only. All of the Seat Belts are made in the U.S.A. and are built under the current Governments safety guidelines.

Are you looking to replace or upgrade your complicated 1968-73 3 Point Seat Belts with a modern easy to use factory looking Belt? Scott Drake now has a great option. These 3 Point Seat Belts will bolt onto any 1968-73 Coupe or Fastback using your existing mounting hardware. For all customers with 1964-67 Coupes or 1968-73 Convertibles wishing to add 3 point Seat Belts to your car you will need to buy two Hardware Mounting Kits, part # SB-3P-HK. The belt buckles are very similar to the original buckles Ford used in the Late 1960's and early 1970's and even feature an exact copy of the Starburst emblem.

PAINT & DYE

ACCUMATCH INTERIOR DYE

This proprietary formula is approved by and meets Ford OEM performance specifications. It penetrates and chemically bonds to any clean surface. Will not crack, flake or peel. This does it all: Vinyl, Carpets, leather, hard plastic, exterior trim, convertible tops and metal. Really anything associated with a vehicle. Actually penetrates and chemically bonds, will not crack, flake or peel. Quick Drying formula, so parts can be touched and installed in as quick as 10 minutes. Will not fill in grain pattern. Truly an OEM finish in an aerosol can. Yes a little more money but well worth it. When painting the outside of your car, do you typically buy the cheapest paint you can find" LP-383 and PP-2322 are recommended for professional results.

1965-66 MUSTANG E-2 BODY KITS

The styling of the E2 Body Kit is a Mustang Depot exclusive now available through Scott Drake, evolutionary design inspired by the 1967 Eleanor body and working it around the 1965-66 model year cars. Available for Coupe/Convertible and Fastback models, this kit breaks away from the idea that these kits only belong on a Fastback. For even more customization, each kit comes with your choice of 1 of 5 hood styles (be sure to note your hood choice when ordering). **Complete the look with a Scott Drake Billet Grille, see the "Grille" section of our catalog.**

Kits include: hood (choose 1 of 5), headlight buckets, upper nose (1 piece), lower nose, front fender flares, side exhaust skirts, rear fender flares, lower side scoops, upper side scoops (fastback only), and a spoiler trunk w/end caps.

***** Prices below are based on being Drop Shipped directly from manufacturer to you. All Kits subject to a $50 Packaging fee and Nose Assembly a $20 packaging fee by Manufacturer. Any parts that you wish to be brought into the Scott Drake warehouse and consolidated with you Scott Drake Order will have additional handling charges added: $10 per part number for individual pieces or $50 per Kit. *****

HUSHMAT MEGABOND SILENCER INSULATION

Eliminate road noise, vibration and add thermal insulation with premium damping products from Hushmat. Hushmat offers more than 18 years in automotive OEM experience! HushMat Megabond Silencer is the perfect material to use to reduce heat transfer from your big engine, drive train or exhaust and reduces the high frequency noise caused by road surface variation (tire noise), engine noise, and wind noise passing behind trim panels. Aggressive butyl based adhesive on back for one step peel and stick application. Stick to sheet metal or fiberglass vehicle surface or directly onto aluminum surface of HushMat Ultra vibration damping material for the ultimate COOL & QUIET interior.

feel, feedback and sporty 16:1 ratio. It has been remanufactured to bolt directly to the factory mounting location and to fit the stock pitman arm without any interference or modification of the shock tower. 1965-67 Mustangs will require replacing column shaft. 68-70 Mustangs will need the factory column collapsed 1-2" for clearance. Eliminate your leaky control valve and sloppy steering. Feel the road with our new integral power steering conversion kits. We offer both Kits to convert from MS to PS and Factory PS to PS. Please note Factory Ford Pumps work fine with these Kits above Idle but will offer very little power assist under 800 RPM's. We can special order a PS to PS Kit with a modern Saginaw Pump that is more effective at Lower RPM's.
Note: Manual Transmission cars must run a special Clutch Equalizer Bar or a Clutch Cable Set-Up, both are available in the Transmission section (Big Block Equalizer not available at this time). Due to the fact that there are 8 possible kits for 1967, some will cross-over to listed kits, and others are available as special order, so please call. 6-cylinder kits available as Special order, so please call.

SUSPENSION

COIL SPRINGS

GT COIL SPRING

These springs were original equipment on 1965 - 1966 GT Mustangs. Firmer than stock but offer a softer ride than our 600 pound racing springs. Ideal for anyone looking for improved handling without sacrificing ride comfort. Made in the U.S.A. exclusively for Scott Drake. Features black powder coating.

Coil Spring, GT

65-66	Original GT	C5ZZ-5310-E	$89.95 PR

PERFORMANCE COIL SPRING

These springs are custom wound for the performance oriented customer. They feature 600-pound/inch rating and will lower the car approximately one inch from original stock height. Made in the U.S.A. exclusively for Scott Drake. Features black powder coating.

Coil Spring, Performance

64-66	High performance, black.	C5ZZ-5310-P	$89.95 PR
67-73	High performance	C7ZZ-5310-P	$89.95 PR

PROGRESSIVE RATE COIL SPRING

These springs allow your Classic Mustang to take advantage of the latest suspension technology and perform more like a modern sports car. They really do give you the best of both worlds. A fairly stock smooth ride during normal driving, but as the springs compress under load (primarily during braking and cornering) they progressively become firmer very quickly to offer the handling characteristics similar to our 600 pound performance springs, but without sacrificing ride comfort. These progressive rate springs are suitable for long pleasant family road trips as well as a variety of autocross and race courses. These are a little more money, but well worth it if you are looking for the best money can buy. Made exclusively for us in the U.S.A. by a premier OEM supplier (for strictly race car applications we still recommend our Performance Springs). Our Progressive Rate Coil Springs feature: Hot wind from SAE5160H, oil quench, temper, water quench, shot peen, preset, 100% load test, ground flat and black powder coating. These springs will sit your vehicle lower than our Stock Coil Springs, actual drop will vary with overall car weight.

Note: 1970 351C cars can choose either Small Block or Big Block springs based on car's options. Cars with heavy factory cast-iron intake, PS and AC might be better suited with big block version but can chose Small Block version as well. On all other 351C applications Small Block version is recommended as car may sit higher than preferred if there is not enough weight over the springs.

ORIGINAL 4 LEAF SPRING

These premium springs are made using high-quality spring steel to assure a smooth, stable ride that will last for years. Features OEM style clamps, correct "hot cupped" ends, anti-squeak pads, front eye bushing installed and OEM 4 leaf design. They will also help lift that sagging rear end. Ford originally listed more than 24 different part numbers for the Mustang between 1964-73. The parts varied only slightly, depending on body style, options, engine size, handling options, and transmission. Scott Drake has chosen 2 different springs as the most universal and one of these should meet most customers' needs. Choose from either C5ZZ-5560 which has a slightly stiffer rate and higher arch. But it may raise your car higher than it's original stock height depending on total weight of the vehicle. This is especially true on early model 6-cylinder cars. Still this is the more popular spring as most customers do not like the traditional slightly lower in the rear look that Mustangs are infamous for. But if an original lower ride height is more what you are after we also offer a Light Duty version under part number C5ZZ-5560-S. Although we make absolutely no guarantees about actual ride height on your particular car, as there are many variables to contend with, please find the below comparison we did between the two springs to give you an approximate idea of ride heights you can expect. The test was done on a 67-68 coupe and measured at the top center of the rear wheel arch. (Note: 64-66, 69-70 and 71-73 wheel arches are not exactly the same so their measurement would vary. The test car had 215-70-14 tires on it. On the test car our C5ZZ-5560 measured 26.75" and the C5ZZ-5560-S measured 26". Once again, these measurements will vary from car to car depending on tire size, tire pressure, full or empty tank, and overall weight; but you can expect your car to sit about 3/4" higher with C5ZZ-5560 over C5ZZ-5560-S.

PERFORMANCE REAR LEAF SPRINGS

We offer a large selection of performance leaf springs in both 4.5 and 5 leaf versions to suit any driver, and any application on or off the track and at any ride height. These premium springs are made using high-quality spring steel to assure a smooth stable ride that will last for years. Painted detail gray to look as good as they perform. 1" and 2" lowering versions refer to drops compared to standard eye heavy-duty 5 leafs which may sit slightly higher than original depending on year and original options your car was equipped with.
